

**SCOTLAND
RACK, LTD.**

Rivet Lock Shelving

BRIDGES THE GAP BETWEEN STEEL EDGE SHELVING AND BULK RACK

- Choice of Double Rivet beam for heavy duty storage or Single Rivet beam for lighter loads.
- Easy assembly without tools
- Channel type deck supports
- Adjusts on 2" centers.
- More stock sizes available than any other brand for maximum storage efficiency
- Medium Density Fiberboard (MDF) or Open decks
- Rugged baked enamel finish

Ships in 1 - 5 Days

Heavy Duty Double Rivet Shelving

- 5, 6, 7 or 8 feet high units
- 15, 18, 24, 30, 36, 48 inches deep
- 4, 5, 6, 7, or 8 feet long

Light Duty Single Rivet Shelving

- 5, 6, or 7 feet high units
- 15, 18, 24, 30, 36 inches deep
- 36, 42, 48, 54, 60 inches long

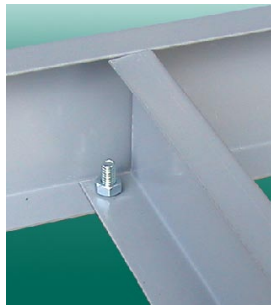

Heavy Duty Double Rivet

can tie to a . . .

Light Duty Single Rivet

Double rivet connection provides greater strength and rigidity. Beams snap into place.

Channel-type deck supports provide superior protection from deck sag. Attach with 1 bolt to the bottom of the beam flange.

Rivet post tie plates Tie rows of units together for precise spacing at less cost than tee-posts.

Single rivet beam rounded steel edge protects MDF decking edges and allows easy sliding of material onto deck. Easy, boltless assembly without tools.

Channel-type deck supports snap into beams and provide superior front-to-back support.

Heavy Duty Rivet Lock

Beams quickly snap into place on 2" centers into keyhole slots in posts. Rugged heavy duty beams use a double rivet design for added strength and rigidity. Deck supports for double rivet beams attach to beams with one bolt on either end of the support and provide superior protection from deck sag. All components are formed from 16 gauge steel with a tough grey baked enamel finish. Decks are made from furniture grade, smooth non-splintering medium density fiberboard (MDF) which provides a smooth surface for sliding material on and off. See back cover for load ratings.

Light Duty Rivet Lock Units

Absolutely no bolts. Beams snap in place on 2" centers into keyhole slots in posts. Everything snaps together for rapid assembly. Unique design provides a rounded steel edge for sliding material on and off while protecting the MDF decking. Angle posts hold MDF decking in place to provide the most uninterrupted usable storage area. Tie units together with post tie plates for increased strength and uniform spacing at less cost than tee posts. Rugged baked enamel finish. See back cover for load ratings.
